Page 9 Resources to help you recruit!

Set Up Your Team

Option 1: for teams where **each individual is paying** for their own registration. Or one person is entering the details of each member and adding registrations together.

To set up a group and receive the 10% discount you will need to create your group/team while completing your individual registration.

Step 1: After selecting your chosen sub-event (eg. 10km), fill in your details. When you get to the “Team” section, select “Create new team” and follow the prompts.

Step 2: Once you have done this you can share the team details with other members to join and receive the discount!

Alternatively, you can add another participant on their behalf by selecting ‘ADD ANOTHER REGISTRANT’ at the bottom of the page.

PLEASE NOTE: Your team will only be created if you complete your registration by making payment, with the 10% team discount automatically applied at checkout.

Set Up Your Team

Option 2: for teams where the team organiser is paying for registrations. For example, corporate teams. This will allow you to **pre-purchase entries** and **receive codes to distribute** to participants from your team.

Step 1: Head to the registration portal and select “**Purchase Team Entry Codes**” as your chosen sub-event.

Step 2: Follow the prompts to enter your details. When you get to the “Team” section, select “Create new team” and follow the prompts.

Step 3: Continue through the registration process and sign off on the waiver. When you get to the following screen select **“Yes, purchase codes”**. Enter the amount of codes you would like to purchase for each distance.

Would you like to purchase registration codes? *

Once you have purchased the codes, you will receive a follow-up email containing those codes and instructions on how to redeem them for registrations. If you do not pre-purchase any codes, you will not be able to pre-pay for team member registrations, and each team member will need to pay for their own registrations.

Yes, purchase codes **No, thanks**

Step 4: Follow the prompts to finish the checkout process. After making payment you will receive the purchased entry codes via email and a separate email receipt.

PLEASE NOTE that your entry is NOT confirmed until each participant has registered in their chosen distance using the codes that have been purchased.
